# SPORTS MANAGEMENT SYSTEM

Story-

The Story is about the description and basic flow of product Sports management application.

Story Board

Admin operates the sports application

Story Starts

Admin maintain sports and teachers
database (add/edit/delete/view)
  Eg: add_data()
          edit_data()
          delete_data()
          view_data()

Admin adds the sports details in
records
Eg: add_sports_data()
      sports_id   :   101
      sports_name   :   long jump
      sports_type   :   2
      total_students :   20
      month   :   jan
      teacher_id   :   3

Admin adds teachers details
in the records
Eg : add_teacher_details()
      teacher_id : 1
      teacher_name : navya
      sports_id   : 101

Admin can view the reports
    Eg : view_results()
    sports_id   : 104
    winner1   : ram
    winner2   : Kalpana
    winner3   : rupa

View the pending list of the sports
with assigned teacher names

Eg: sports_pending_list()

View the list of sports teachers
who have successfully completed
all sports

Eg:
event_completed_sports_teacher()

Finished
